

Biodiversity at West Shore Llandudno

IDEAS....

- If possible extend the dune system at west shore
- Can dunes be used to contain / trap wind-blown sand?
- To assess the species and habitats of west shore with a view to promoting these via multiple means
- Can we increase / enhance biodiversity at west shore?
- How does the west shore fit in to the Conwy Local Biodiversity Action Plan?
- To provide opportunities for people to learn more about, and engage with projects developed around the west shore coastal wildlife

WHAT DO YOU THINK?
